**Flag Status:** Flagged

The September issue of the [SAE Update](#) member newsletter is now available.

Exclusively published online, Update contains full-color images, a user-friendly interface, additional career-development content, and direct links for more information. While at the same time offering both graphic and content enhancements, the digital format helps SAE International achieve its goal of becoming more environmentally friendly and expands circulation to include all SAE members.

Some of the articles featured in the September issue include:

**[SAE International heading DOE-funded interoperability project for EVs](#)**

As part of the project, SAE will solicit the input of OEMs and electric vehicle supply equipment manufacturers to develop industry standards and testing procedures for plug-in electric vehicles and charging stations.

**[Telematics, autonomous control high on Komatsu's tech agenda](#)**

SAE 2013 Commercial Vehicle Engineering Congress co-chair Mitsuru "Mike" Ueno, Executive Vice President and Chief Technical Officer of Komatsu America Corp., discusses this year's event and some cross-industry technology trends.

**[AeroTech Congress & Exhibition features impressive lineup of presenters](#)**

Rob Dewar, Vice President of the C-Series Jet of Bombardier Commercial Aircraft; Lieutenant General William N. Phillips of the U.S. Army; and Paul Steele, Executive Director of Air Transport Action

Group, will deliver keynote presentations at the 2013 AeroTech Congress & Exhibition, Sept. 24-26.

**[Career opportunities in calibration engineering focus of free webcast](#)**

To demystify the area of calibration and to encourage careers in the calibration area among engineers and scientists, SAE International will host a free webcast Sept. 26 from 11:30 a.m to 12:30 p.m. ET, featuring industry leaders in the field.

You can access Update anytime from the [Update homepage](#) or through the [Membership](#) area of the SAE website.
